Re: Request for Supplemental Information, Little Cottonwood Granite Extraction Project,
S/035/017, Salt Lake County, Utah

Dear Mr. Nielsen:

On July 7, 1999, an inspection was performed by Division Staff of the Little Cottonwood Granite Extraction project. The purpose of the inspection was to evaluate the status of operations since our last site visit on November 5, 1998. We met Greg Baptist of the Salt Lake County Special Services & Development Department and Dallas Orchard of Idaho Travertine Company onsite. A copy of our inspection memo is attached for your reference.

As a result of our inspection we require that the following information be provided to update our files:

1. An updated disturbed area map clearly outlining all current mining related disturbances. Please label and differentiate between existing and proposed disturbances, including any recent and/or proposed changes to the access roads and the permit area/safety fence boundary. Please identify and show the location of the support facilities (trailers, etc.) on this map as well .
2. A complete copy of the approved plan amendment which was recently filed with the county seeking their approval for a variance to conduct mining activities within the 1000 foot residential building lot buffer zone (including any updated maps).
3. A copy of the most recent geotechnical stability report which is routinely being filed with the county. A copy of a current weekly or monthly summary would suffice.
4. A copy of the 1998 Annual Report of Mining Operations (Form MR-AR) for the project. Our records indicate we mailed a copy of the form to your offices on December 28, 1998.

Mr. Kerry B. Nielsen

S/035/017

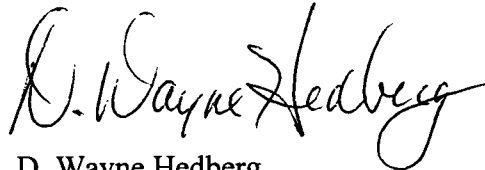

July 16, 1999

A second copy was telefaxed to your office on July 9, 1999.

The mining and operations report is required by State mining law (Utah Mined Land Reclamation Act, Title 40-8-15.2) and the Minerals rules (R647-3-116). All permitted mining operations must file this report on or before January 31 of each year, describing the operations conducted during the preceding calendar year. An operator's failure to file this report in a timely manner may be considered a violation of the Act and Rules which could result in subsequent enforcement action by the Division.

Thank you for your cooperation in providing us with the requested information. Please submit this information to our office within 10 days of your receipt of this letter. If you have questions or concerns in this regard, please contact me at (801) 538-5286.

Sincerely,

A handwritten signature in black ink, reading "D. Wayne Hedberg". The signature is fluid and cursive, with the first name "D." and last name "Hedberg" clearly legible.

D. Wayne Hedberg
Permit Supervisor
Minerals Reclamation Program
